APPENDIX.

N^o I.

The following Letter has been received from Mr. HOLDITCH, of Lynn, in continuation of his former Communication in Vol. XL, p. 61.

SIR;

Lynn,
Aug. 4, 1823.

I BEG leave to inform you that I have erected a beacon similar to the one upon the Long Sand, of which you have a model, upon an island of sand called the Whiting Sand; the height, size, braces, chains, and stones, of nearly the same dimensions, with the following improvements, viz.

Instead of the triangle with seats upon the top, I have a round top, 6 feet diameter, and *railed round*, with a triangular vane of 2 feet each way, which shows that size from every point of the compass; and also a small seat *under* the top, to hold 3 persons occasionally: the beacon shows itself at 3 or 4 miles distant, like a sloop riding at anchor.

The Whiting Sand, where the beacon stands, is 12 miles from Hunstanton Cliff, and 7 miles from Terrington Steep, (*i. e.*) the *nearest* land, and 14 miles from Lynn town, and will preserve 10 men, if required, or more.

I am, Sir,

To *A. Aikin, Esq.*

Secretary, &c. &c.

G. HOLDITCH.
